

Evgenia Filimonova

QA Engineer

Batumi, Georgia

tehnotupost@gmail.com

GitHub: <https://github.com/Tehnotupost>

Portfolio: <https://tehnotupost.github.io>

Professional Summary

QA Engineer with nearly 2 years of commercial experience in manual testing of web, desktop, mobile, and backend applications. Experienced in the full software testing lifecycle, including requirements analysis, test design, test execution, defect reporting, and release validation. Passionate about software quality and continuously developing skills in Java test automation.

Professional Experience

QA Engineer

Data Solutions

2026 – Present

- Performed functional testing of backend services for banking systems.
- Tested REST APIs using Postman.
- Worked with PostgreSQL for database validation.
- Used Kafka to verify message exchange between services.
- Analyzed logs using Kibana.
- Worked with OpenShift environments.
- Participated in requirements analysis and acceptance testing.
- Prepared test documentation and reported defects in Jira.

Junior QA Engineer

Data Solutions

2024 – 2026

- Tested web, desktop, and mobile applications.
- Executed functional, regression, smoke, and integration testing.
- Created and maintained test cases and checklists.
- Performed API testing using Postman.
- Used Charles Proxy for traffic analysis.
- Worked with SQL queries for database verification.
- Participated in release testing and production support.

QA Trainee

iFellow

Learned software testing fundamentals.
Created test documentation.
Practiced API and UI testing.
Worked with SQL and Git.

Technical Skills

Testing

Manual Testing
Functional Testing
Regression Testing
Smoke Testing
Sanity Testing
Integration Testing
API Testing
Backend Testing

Automation

Java
JUnit 5
TestNG
Selenium WebDriver
REST Assured
Maven
Allure Report

Tools

Postman
Charles Proxy
Jira
TestIT
Git
Maven
IntelliJ IDEA

Databases & Technologies

PostgreSQL
SQL
Kafka
Kibana
OpenShift
REST API

Projects

Automation Framework – API

Java automation framework for REST API testing using REST Assured, JUnit 5, Maven, and Allure.

GitHub:

https://github.com/Tehnotupost/IFQA_Filimonova/tree/IF_HWF_API

Automation Framework – UI

Java automation framework using Selenium WebDriver, JUnit 5, Maven, and the Page Object Model.

GitHub:

https://github.com/Tehnotupost/IFQA_Filimonova/tree/IF_HWF_UI

PixelToads

Personal indie roguelike card game developed with Java and LibGDX.

GitHub:

<https://github.com/Tehnotupost/PixelToadsGame>

Education

Saratov State University

Master's Degree in Medical Physics

Saratov State University

Bachelor's Degree in Electronics and Microelectronics

Courses & Certifications

Software Testing Course — Artsiom Rusau
Automation Testing Course — iFellow

Languages

Russian — Native
English — B2 (Upper-Intermediate)

Additional Information

Strong analytical and problem-solving skills.
Experience working in Agile/Scrum teams.
Interested in Java automation and SDET roles.
Open to remote international opportunities.
